## UCLA's Ducky Drake, Honorary Referee

Elvin C. Drake, 68 now, has devoted his life to track and field.

He first was a runner in high school at Fort Morgan, Colo., shortly after the first world war. He left the Rockies for Southern California, ran for UCLA, and was captain of the Bruins' track team in 1926.

He's been at Westwood ever since, and was either assistant or head track coach at UCLA for 35 years.

The track coaches of the National Collegiate Athletic Association are proud to honor "Ducky," as he is known, and make him Honorary Referee of the 50th championship meet.

When Ducky graduated from high school in Fort Morgan, in 1920, the NCAA track-and-field championships had not yet begun. They started the next year in Chicago. The University of Illinois won the meet by scoring 20 points.

He continued his trekking westward (he had been born in Friend, Nebraska, before going to Colorado) by coming to that land filled with sunshine and orange groves and movie stars (then), Los Angeles.

He worked for a few years, then entered UCLA—before its campus even was in Westwood. Track coach Harry Trotter used him in a lot of races in 1925, '26 and '27—in the half-mile, mile, on the mile-relay team and in the few distance races Americans ran then.

A Santa Monica girl, Ethelyn Curtis, fetched him as a husband, and by 1929 Ducky was back at UCLA, now starting its new campus and with Ducky as its new assistant track coach.

On top of that job, Ducky became both cross-country and freshman-track coaches in 1935. And in 1942, he was named the school's head trainer, a job he still holds.

He took over as head track coach in 1947, and stayed there for 17 years. His Bruins won the NCAA championship in 1956 after just losing to USC in Los Angeles the year before.

Eight of his athletes went on to compete in Olympic Games. Two of them—Cy Young in the javelin in 1952 and Rafer Johnson in the decathlon in 1960—won Gold Medals.

To win his Olympic championship, Rafer had to beat a freshman from UCLA and the Republic of China, C. K. Yang.

He's spent most of his life in track, and he'll be here this weekend to see another meet.

# A brief prospectus

## Individuals

Karl Salb, Marty Liquori and Ralph Mann are after their third NCAA outdoor track-and-field championships. In the 50 years of this meet, only 25 collegians have accomplished that.

Salb, a shot-putter from Kansas, leads the country's collegiate throwers this year at 66-10. Three others have previously swept three shot titles: Dallas Long of USC in 1960-1-2, Al Blozis of Georgetown in 1940-1-2, and Harlow Rothert of Stanford, 1928-29-30.

No intermediate-hurdler ever has won three championships; that's what Brigham Young's Ralph Mann is trying to accomplish. (To be fair to the old-timers, however, it was not held annually until 1959.) Ralph set the world record of 48.8 in this meet a year ago and leads the country this season at 50.2 (he shares that with Mike Cronholm of Rice).

Liquori, Villanova's miler, upset Jim Ryun to win this championship two years ago as a sophomore, then repeated easily last year. He ran his lifetime best, 3:54.6, this spring. Three milers have won three titles: Dyrrol Burleson, Oregon, 1960-1-2; Don Gehrmann, Wisconsin, 1948-49-50, and Wes Delaney, Villanova, 1956-7-8.

But look at the great milers who did not win three: Glen Cunningham of Kansas, 1932 and 1933; Archie San Romani, Emporia State, 1935 and 1936; Wes Santee, Kansas, 1953; Bill Dellinger, Oregon, 1954; Jim Bailey, Oregon, 1955; Jim Grelle, Oregon, 1959, and Kansas' Ryun, who won only in 1967.

Aside from Salb, Liquori and Mann, there are six other defending champions here, and one 1969 winner. The 1969 champ is Curtis Mills of Texas A & M, who ran a world-record 44.7 to win the 440 that year, then was third last year.

The other defending champs are Eddie Hart, California, 100; Steve Prefontaine, Oregon, three-mile; Sid Sink, Bowling Green, steeplechase; Arnie Robinson, San Diego State, long jump; Mohinder Gill, Cal Poly-San Luis Obispo, triple jump, and Pat Matzdorf, Wisconsin, high jump.

A quick look at the events:

**100**—Willie Deckard of USC and Jim Green of Kentucky have run 9.2 this spring. And those who have run 9.2s previously in their careers are Ivory Crockett, Southern Illinois; Mel Gray, Missouri, and Mike Goodrich, Indiana. On the basis of his record, JC-transfer Deckard is a slight favorite. Returning champ (Hart) and runnerup (Isaac Curtis, also Cal) have been hurt this season.

**220**—Deckard leads the world this season at 20.2 and is the favorite. There are four 1970 placewinners back, but they'll be challenged by newcomers George Daniels(Colorado), Robert Mitchell(Houston) and Dennis Schultz(Oklahoma State).

**440**—A super field, with eight runners who have run in the 45s in their careers. They're led by Wayne Collett (45.3) and John Smith (45.5) of UCLA and Edesel Garrison (45.4) of USC. Collett was intermediate-hurdles runnerup last year and fourth in the 220 two years ago. Also here are Roger Colglazier of Abilene Christian(45.9 in 1970), Clyde McPherson of Adelphi(45.9 in 1970), Tommie Turner of Murray State(45.5 in 1969 and 1970, 46.0 this year), Dave Morton of Texas(45.9) and world-record holder Mills(45.9).

**880**—Mark Winzenreid, 1:47.5 this season and career bests of 1:46.6 for 880 yards and 1:45.6 for 800 meters, is the favorite. Two boys in the 1:48s this season have withdrawn, leaving only five others in that range so far this spring. But you can't discount California freshman Rick Brown, Pac-8 champion at 1:49.1.

**Mile**—Liquori is a big favorite. The second-best collegiate mile time this season belongs to Oregon's Prefontaine(3:57.4), who isn't running this race. There are four other sub-4 entries: Lee LaBadie, Illinois, 3:58.8; Jerome Howe, Kansas State, 3:59.4; Larry Rose, Oklahoma State, 3:59.5, and Duncan MacDonald, Stanford, 3:59.6 last year.

**Three-mile**—Prefontaine won it last year as a freshman and is a big favorite to repeat. This spring he ran the second-fastest three-mile in history by an American: 13:01.2. Next-fastest is 13:12.2 for Garry Bjorklund of Minnesota, last year's runner-up, but he may concentrate on the six-mile. Can "Pre" break the stadium record?

**Six-mile**—Bjorklund, also just a sophomore, broke the collegiate record this season (27:24.6) and he may be challenged only by Air Force's John W. Jones III. Only other entrant under 28 minutes is John Bednarski of Texas-El Paso, who ran 27:59.8 in his native England two years ago.

## Returning NCAA Champions

100	Eddie Hart, California '70
440	Curtis Mills, Texas A & M '69
Mile	Marty Liquori, Villanova '69, '70
3-mile	Steve Prefontaine, Oregon '70
Int. hurdles	Ralph Mann, BYU '69, '70
Steeplechase	Sid Sink, Bowling Green '70
Long jump	Arnie Robinson, San Diego St. '70
Triple jump	Mohinder Gill, Cal Poly/SLO '70
High jump	Pat Matzdorf, Wisconsin '70
Shot put	Karl Salb, Kansas '69, '70

**Steeplechase**—A tremendous field. Western Michigan's Jeromee Liebenberg, last year's runnerup, broke the collegiate record this year with 8:32.2, second-fastest ever by an American. But he lost two weeks ago to defending champion Sink, who has run 8:40.1. Also with 8:40.1 is Steve Savage of Oregon, runnerup two years ago and third last year. Ducks as well have freshman Todd Lathers, at a brilliant 8:40.4. And there's Jim Johnson of Washington (8:40.9) and Don Timm of Minnesota(8:43.0) in this tremendous field.

**High hurdles**—Depends partly on condition of injured athletes Paul Gibson of Texas-El Paso (defending champ, 13.4) and Marcus Walker of Colorado(returning runnerup, 13.7 1971, 13.3 1970). Bill High of Tennessee, runnerup two years ago as a freshman, is favorite in their absence with two 13.5s this spring. Threats are Jeff Howser, Duke, and Lance Babb, USC.

**Intermediate hurdles**—Mann is back, which says a lot. But there are also five others under 51.0 this year, and they could make a race of it. Jim Wharton, Idaho State, fourth the past two seasons, has been withdrawn.

**Shot put**—Salb has slight edge on teammate Steve Wilhelm(66-3) and UTEP's duo, Vince Monari(65-1½) and Fred DeBernardi(64-3½). Others may have trouble breaking that group.

**Discus**—Battle between DeBernardi(201-8) and USC's Joe Antunovich(198-10).

**Javelin**—Two-man battle between Washington's Cary Feldmann(268-1) and Arizona State's Mark Murro(272-1). Murro won the title in 1969 and set an American record of 300-0 before injuring his ankle last spring.

**Hammer**—All Kent State, thanks to collegiate-record holder Al Schoterman(224-6) and freshman Jacques Accambray(217-0). Frenchman Accambray has a lifetime best of 223-10½.

**High jump**—Fourteen jumpers have made 7 feet, led by defending champ Pat Matzdorf of Wisconsin (7-2) and Cal Poly's Reynaldo Brown(7-2, lifetime 7-3¼). It should take 7-0, maybe even higher, just to place.

**Long jump**—Robinson is back to defend his title, but he's never jumped as far as USC's Henry Hines (26-8½) and UCLA frosh James McAlister(26-6½), the world leaders this spring. Also over 26 are Danny Brabham of Baylor and Pac-8 champion Bouncy Moore of Oregon. Jerry Proctor of Redlands, 1969 champion, has been injured and may not compete.

**Pole vault**—Who ever knows what the pole-vaulters will do? The field has six 17-footers. Dave Roberts of Rice has been the most consistent this year and he leads the pack with 17-5. UCLA freshman Francois Tracanelli did 17-8½ last season. And there are three of local interest: Kirk Bryde of Washington(17-4), Jack Ernst of Washington State(17-0) and Casey Carrigan of Stanford(17-4¾ for Orting, Wash., High School in 1969).

**Triple jump**—It's all West Coast: defending champ Gill at 55-1¼, plus the Pac-8 mob—James Butts, UCLA, windy 54-2½; Bob Reader, Oregon State, 53-10½; Jim Fraser, Cal, 53-¼; Henry Hines, USC, 52-8, and Denny Rogers, UCLA 52-6½.

**440 relay**—USC has the best time(39.3) and is the favorite; Deckard is a tough man to catch, or hold off. Colorado ran an early-season 39.6 but has not done much since. Only other team under 40 is UCLA(39.7), only college team to beat SC this year.

**Mile relay**—Finish of this race has been identical past two seasons: UCLA first, Rice second, Tennessee third. All have good teams this season, UCLA the best (3:05.2). Other toughies are Abilene Christian, Murray State, Adelphi and Oregon.

## Teams

No one can predict who will win the championship of this meet. The best method is to look for "dependable points." USC and UCLA seem to have more of those than others, and so they seem to be co-favorites.

USC has sprinter Deckard, who could break the tape first three times—that means 30 big points, more than the Trojans scored throughout last year's meet. They also have discus man Antunovich, jumper Hines, two vaulters, a 7-foot high-jumper, Garrison in the 440, Babb in the high hurdles.

UCLA has Smith and Collett, in the 440 and mile relay, and they're gonna score. Then come McAlister in the long jump, Tracanelli in the vault, sprinters entered in three spots in the 100 and one in the 220, their two triple-jumpers plus Finn Bendixen in the 1j, two high-jumpers and the 440 relay.

Others with a chance to score well:

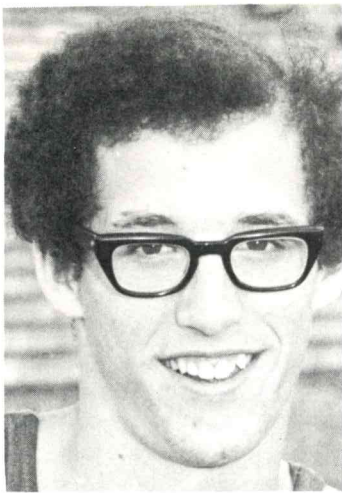

Texas-El Paso: defending champ Gibson, weightmen DeBernardi and Monari, vaulter Paul Heglar, sprinter Harrington Jackson, half-miler Greg Jones, intermediate-hurdler Ron Rondeau. A lot of potential.

Oregon: Ducks have their usual distance runners—Prefontaine in the three-mile, three milers under 4:02.5, Savage and Lathers in the steeplechase. Also Moore, a super competitor, in the long jump; 7-footer Marty Hill, a Seattle boy, in the high jump; sprinter Al Hearvey, shot-putter Pete Shmock, and a couple relay teams.

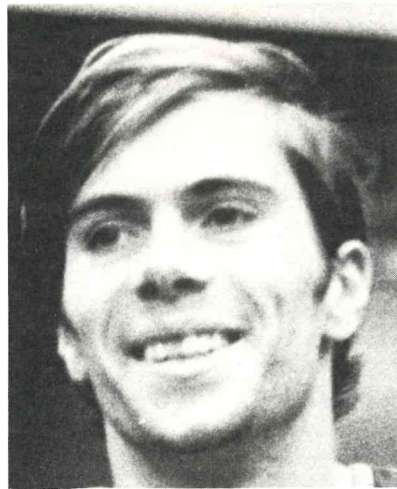

Tennessee: Vols are without their defending champ, moustachioed javelin-thrower Bill Skinner. But they have high-jumper Tony Wilson(7-1½), hurdler High, frosh sprinter Darwin Bond, half-miler Danny Zoeller, and two good relays.

Brigham Young: lots of good freshmen field-event talent, plus Mann and a couple of distance runners.

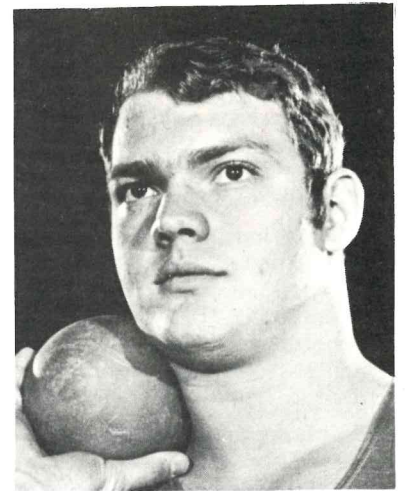

Others with good potential—Rice, Texas, Minnesota, Washington, California, Kansas.

## Freshmen abound

There are plenty of great freshmen competing in this year's meet—and most of them are foreigners.

And of that group, Brigham Young seems to have a corner on the market. BYU has four excellent freshmen entered in the meet. They're shot-putters Anders Arrhenius (61-4½) from Bromma, Sweden, and Rolf Engels (61-10½) from Mulheim, West Germany; discus-thrower Zdravko Pecar (185-1) from Maribor, Yugoslavia, and javelin-thrower, Ramio Pihl (264-1 this year, 268-9 last year) from Tuilliage, Sweden. To stay a little provincial, the Cougars also have freshman Richard Reid, a three-miler (13:35.4) from Bountiful, Utah.

Oregon has Todd Lathers, who set a world age-18 record this spring in the steeplechase with 8:40.4. Other West Coast freshmen are football star James McAlister of UCLA, California half-miler Rick Brown and San Diego State high-jumper Jerry Culp.

One of the hottest youngsters is Bob Wheeler, a prep last year at Timonium, Md., and now running for Duke. He won the Atlantic Coast Conference 880 (1:48.2) and mile (4:02.7) championships, the fastest one-day double in those races in history. Here, he will run only the mile.

# What is the Bulova Accutron Phototimer?

You've heard so often that difference of opinion is what makes horse races. The same difference also makes foot races, and explains the role that is played in them by the Bulova Accutron Phototimer's service to track and field meets all over the country.

The Phototimer is making its first appearance in the Seattle area here at the 1971 NCAA championships. To reuse that very corny phrase, the NCAA and the Bulova Accutron Phototimer go together like ham and eggs. The two have been together at NCAA outdoor and indoor championships for many years.

That they are here together is because the Bulova Watch Company's natural interest in time inevitably led to the appearance of the Phototimer. This happened 23 years ago, when Harry B. Henshel, now president of Bulova, saw the Photofinish cameras in operation at the racetrack. He asked his own engineers why Bulova couldn't produce the same camera with time added to it.

They did, and Bulova has been on the scene ever since, with constantly-improving equipment that now is estimated to be worth somewhere around \$250,000 in replacement costs.

From the first, the Phototimer has proved its value to the officials, starting, believe it or not, with its very first appearance at the National AAU cross-country championships in Detroit in 1948. That race was so close that both Bob Black, unattached, and Curtis Stone, of the Shanahan Catholic Club, were caught in the same time of 30:02.1 by the Timers.

In the Bulova Phototimer picture, Black was shown to be the winner by the margin of 1/100th of a second. The Bulova Accutron Phototimer can time races in 100ths, as against 10ths for hand timers.

You never know what races need the Phototimer most, although the percentages are in favor of the equipment being busier in the sprints than in the distance races.

Would you have believed that a six-mile race would end in a photofinish with two runners clocked in the same time by the officials using hand timers? But it happened, in the 1965 National AAU championships at San Diego, Cal. The Bulova Phototimer decided that one, with Bill Mills beating Gerry Lindgren by the margin of 5/100ths of a second.

Again in the three-mile run at the 1965 NCAA championships at Berkeley, Cal., Doug Brown of Montana and John Lawson of Kansas ran so close a race that the fans decided they would be the judges. Each had his own choice and the din was tremendous until the Phototimer picture separated them to show Brown was the winner by a fractional margin, although the hand timers clocked them in the identical time of 13 minutes 40.2 seconds.

To give the officials this service Bulova has developed an elaborate operation which requires a crew of six technicians, plus messengers and other assistants, which sometimes brings the total to ten.

The operation is divided into five parts, starting with the slit camera which is open all the time as compared to your shutter-principle Kodak or Polaroid.

The open-slit camera is focused exactly on the finish line. It photographs both the runner and his time as EACH crosses the finish line. Nothing which stops short of that line can be photographed on the moving strip of film which revolves horizontally inside the camera.

Then there is the Bulova-patented starting unit which triggers the operation into action through a photoelectric transluceux fastened to the barrel of the starter's pistol. When the pistol is fired, the detector converts infrared energy from the flash into a start signal that is broadcast by a radio transmitter linked to the detector. This is picked up by a radio receiver linked to the Phototimer's time base.

This results in an elapsed-time recording that is linked to the slit-camera unit. At the finish line on the field, in exact line with the camera, is the spinner which carries the legend of the meet—it's name, the particular race and the heat. This spinner rotates at a speed equivalent to that of the runners. As the camera photographs those runners crossing the finish line, as well as their time, it also records the information from the spinner, to make identification of each print possible.

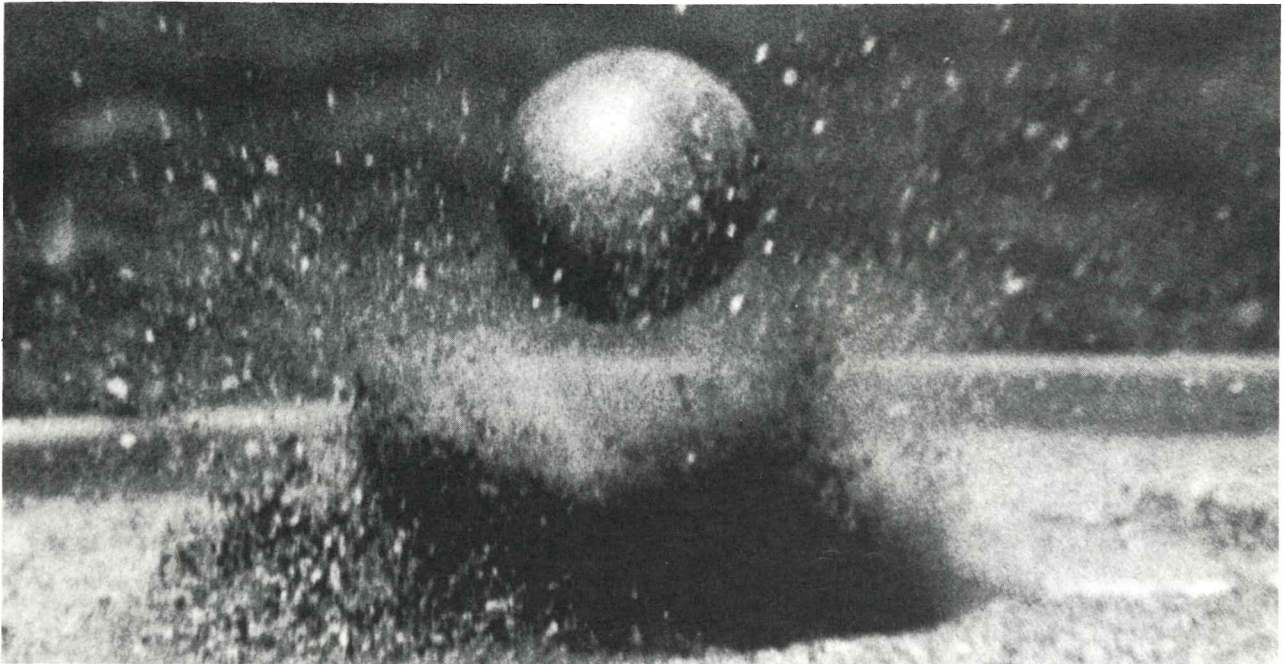

The fifth part of the operation is the portable darkroom, which is set up within the stadium. There the pictures are printed and developed as quickly as they are brought into the hands of the technicians working there. A picture is ready for the judges' study within three minutes.

It takes all that equipment to assure correct judging of the results of each race. Bulova Watch Company Accutron Phototimer experts have been studying their product, the prints of the races, for many years. What amazes them is how the judges have been so consistently correct in their picking, which the Phototimer has borne out.
