The Sponsors Story

Al Franken, Chairman

The Southern California Sports Association and the Sunkist Growers, Inc., are happy to have the Centinela Valley High School District join with them in the presentation of tonight's track meet.

The full program of high school events has contributed immensely to the overall success of the Sunkist meet, which is ranked by nearly all observers as one of the two or three best events of its kind in the nation.

The high school program is directed by Bill Gill, supervisor of track and field for the Centinela Valley School District.

Gill is a former winner of the National Track Coach of the Year as selected by the National High School Athletic Coaches Association.

While at Centennial High, his teams won five CIF championships and three State titles.

The enthusiastic support of the Centinela Valley School District is spearheaded by Dr. Lowell Jackson, its energetic superintendent and Administrative Representative for the California Interscholastic Federation, Southern Section.

The Sunkist meet is led by Al Franken, ably backed up by co-chairmen Stan Eales and Dick Bank, two of the sports' most knowledgeable people. Among others who have made notable contributions to the event are Tom Gaddis and Lynn Jones of the Sunkist public relations department, Coaches Jim Bush, Vern Wolfe, Ken Matsuda, Tom Tellez, Tom Jennings, Pete Petersens, Ron Allice and Dick Tomlinson; along with Dr. Ralph Gold, Bob Weinberg, Hank Ehrlich and David A. Matlin, past president of the AAU.

The Sunkist meet has contributed more than \$70,000 to the track program since its inception. It hopes to be able to make another substantial contribution from tonight's proceeds.

The support of the Sunkist organization is acknowledged. The Sunkist people wholeheartedly back this event and their interest and dedication is growing extremely rapidly. Their backing is one of the strongest reasons for the success of the event.

The sponsors appreciate the help of the VONS Grocery Co., which backed the meet by selling tickets in 100 outlets and promoting and advertising it.

The best training shoe is more like a foot than a shoe.

Tiger training and warmup shoes are the next best thing to running barefoot. Our Cortez and Munich models give you all the comfort, durability, flexibility and protection you need without a lot of extra weight. That's because we build shoes based on the original blueprint... your foot. Then we add improvements.

We give your feet what nature didn't.

We were the first to introduce a soft-sponge midsole underneath the ball and heel of your foot to absorb road shock and reduce soreness. And a built-up heel to protect against strain on your Achilles tendon. Because we know that in racing the consequences of even the slightest discomfort can be very great.

Tiger will take you from New York to L.A.

You can literally run cross country in one pair of Tiger training shoes. The Cortez and the Munich are designed to give you up to 3,000 miles of hard use, almost twice what you'll get from any other training shoe. That's why Tiger is the most popular training shoe in the world.

We make a lot of shoes for a lot of sports. And like the athletes that wear them, we know that when everyone is at their best, you have to be better to win. Tiger is that much better.

It all adds up to some pretty good times.

Why buy a track that only performs on meet day?

Track athletes spend many days training for every day in a meet. But many of today's tracks are designed for only that one day: if they're fast, they're usually hard. Too hard, in fact, for really strenuous training day after day, without unnecessary soreness, shin splints and knee problems.

Chevron's 440 is a remarkably different kind of synthetic track — engineered to combine the qualities needed for both performance and training. Its speed is already proven in competition. Its reputation as a training track is growing every day.

If you'd like more information and facts on 440 installations, write or call Roger Zink, Chevron Asphalt Company, P. O. Box 3069, San Francisco, California 94119. (415) 894-5620. 

CHEVRON'S 440

the fast track
the comfortable track

Freedom of Choice

Stand up for your rights! When you replace worn shocks, don't settle for a carbon copy. Demand Striders.[™] It's the only American-made shock that can be adjusted to the way you drive: *Regular* for the smoothest ride. *Firm* for more ride control and stability, or *Extra Firm* for the peak of high-performance control. Striders gives you this freedom of choice...and backs it up with a guarantee that's good for as long as you own your car.*

Gabriel

The shocking difference

Maremont guarantees Gabriel Striders against defects and wearout for as long as you own your car. Present proof of purchase to dealer for replacement. Cost of removal and installation not included.
